# My Rewards Points Program

## Plugin Documentation

My Rewards Points Program allows you to extended the reward points functionality provided in nopCommerce.

It allows you to award points to your customers for certain actions they carry out whilst using the functions of your store. These include:

- Registering as a Customer
- Making Product Reviews
- Commenting on Blog Posts
- Commenting on News items
- Subscribing to a Newsletter
- Making their First Purchase (or for All Purchases)
- Fast Purchase – Making Payment within a time period
- Order Shipment
- Anniversary of a Customers Date of Birth

In addition, you can award your customers with points on specific dates, for example, national holidays or to coincide with other events.

Customers will receive message notifications when points are added and Reward Points are displayed in the Customers Account.

### My account - Reward points

Your current balance is 54 reward points (\$54.00).

#### History

| Date                   | Points | Points balance | Message  | End date |
|------------------------|--------|----------------|--|----------|
| 16/08/2020 5:06:39 AM  | 5      | 54             | Earned promotion for the fast purchase                             |          |
| 16/08/2020 4:06:31 AM  | 6      | 49             | Earned promotion for the first purchase                            |          |
| 16/08/2020 3:12:20 AM  | 5      | 43             | Earned promotion for the newsletter subscription                   |          |
| 16/08/2020 2:10:30 AM  | 4      | 38             | Earned promotion for the comment to news nopCommerce new release!  |          |
| 16/08/2020 2:09:42 AM  | 4      | 34             | Earned promotion for the comment to news New online store is open! |          |
| 16/08/2020 12:11:09 AM | 4      | 30             | Earned promotion for the review to product Obey Propaganda Hat     |          |
|                        |        |                |  |          |

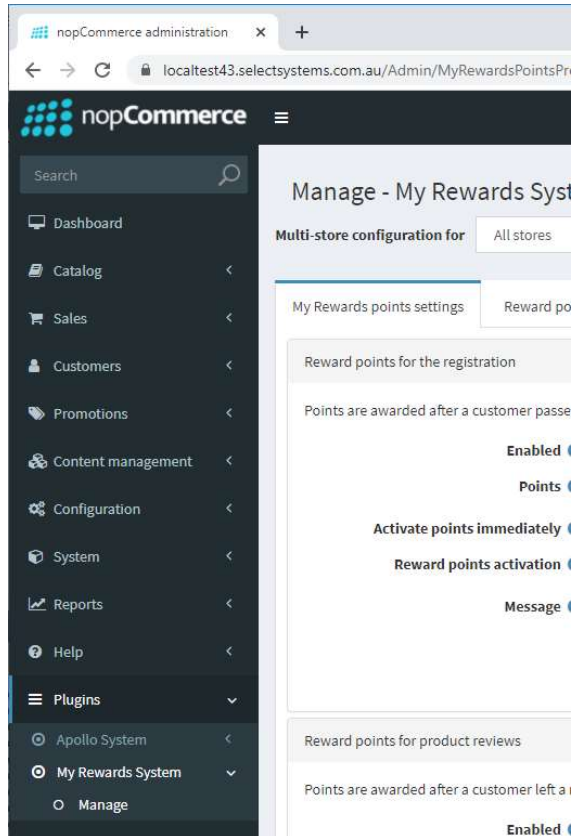

## Administration

The backend Administration has several new pages for managing the setup and operation of the Points Program.

Refer to the Documentation on the nopCommerce Rewards Points Program

See <https://docs.nopcommerce.com/en/running-your-store/promotional-tools/reward-points.html>

## My Rewards Points Program Admin

### Menu Options

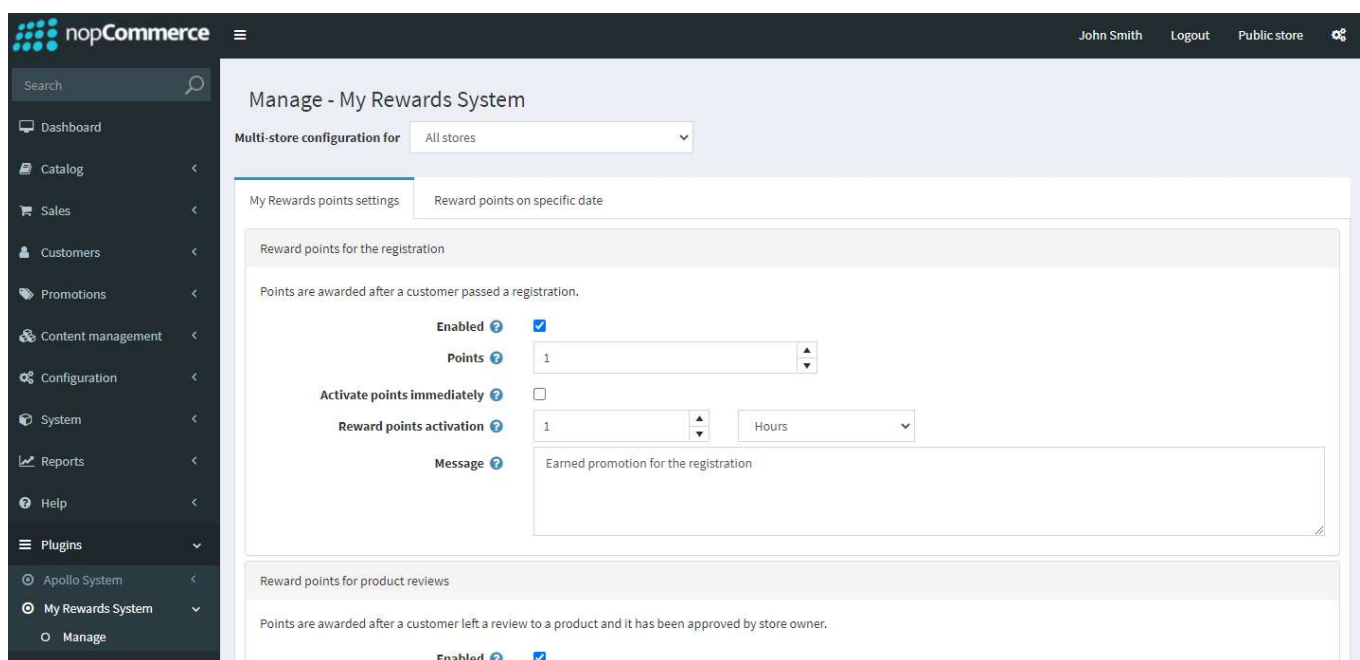

A new Plugin menu is added as part of the Installation.

Under this menu option there is currently one function

#### Manage

Displays the page to manage the settings for the system

Click the Manage option to display the management page.

There are two Tabs for the settings.

## My Rewards Points Settings

The system can allocate points for each of the following event types:

- Registering as a Customer
- Subscribing to a Newsletter
- Commenting on News items
- Commenting on Blog Posts
- Making Product Reviews
- Making their First Purchase (or for All Purchases)

The settings for each type of event are typical

The screenshot shows the 'My Rewards points settings' interface. The 'Reward points on specific date' tab is active. The section is titled 'Reward points for the registration' and includes a description: 'Points are awarded after a customer passed a registration.' The settings include: 'Enabled' (checked), 'Points' (set to 1), 'Activate points immediately' (unchecked), 'Reward points activation' (set to 1 hour), and a 'Message' field containing 'Earned promotion for the registration'.

**Enabled** – Click to enable this award event

**Points** – The number of points that will be allocated for this event

**Activate Points Immediately** – Tick this check box to allocate points immediately, or alternatively uncheck the box to set the duration after the event when points will become available

**Reward Points Activation** – You can set the duration after the event

**Message** – This is the message that will be displayed to the customer after points are allocated by this event

## Reward points on a specific Date

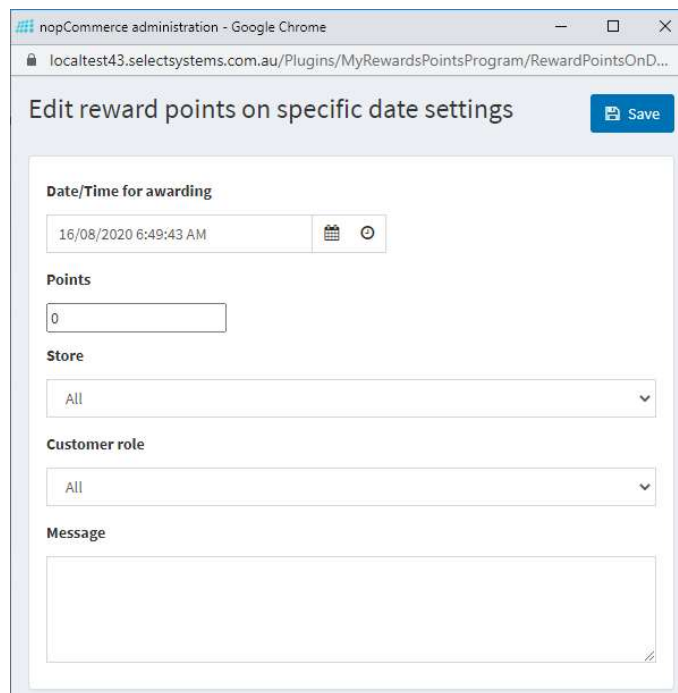

The system can allocate points to coincide with a calendar event e.g. Easter or Christmas

The screenshot shows the 'Manage - My Rewards System' interface. The 'Multi-store configuration for' dropdown is set to 'All stores'. The 'My Rewards points settings' tab is active, and the 'Reward points on specific date' sub-tab is selected. A description states: 'It's possible to award points on specific dates, for examples holidays. Customers will receive a message notification about that. That functionality can be limited by customer roles and stores.' Below this is a table with the following data:

| Date/Time for awarding | Message                  | Points | Store          | Customer role    | Edit | Delete |
|------------------------|--------------------------|--------|----------------|------------------|------|--------|
| 15/08/2020 12:34 PM    | Bonus Points for Holiday | 10     | All            | All              |      |        |
| 14/08/2020 10:52 PM    | Bonus Points for Easter  | 8      | V43 Test Store | Forum Moderators |      |        |

Below the table is a pagination control showing '1' and '1-2 of 2 items'. At the bottom, there is a button labeled 'Add new reward points on specific date settings'.

To add a new calendar event, click the “Add New reward points on specific date settings” button and a Pop-up form will be displayed

**Date / Time for awarding** - Select the Date/Time for the allocation using the selector.

Note: the date will be converted to the UTC Date/Time Value after entry

**Points** – The number of points to award

**Store** – In a multistore environment you can select the store for the allocation

**Customer Role** – you can select the customer role for the allocation

**Message** – Enter the message that will be displayed to the customer after points are allocated

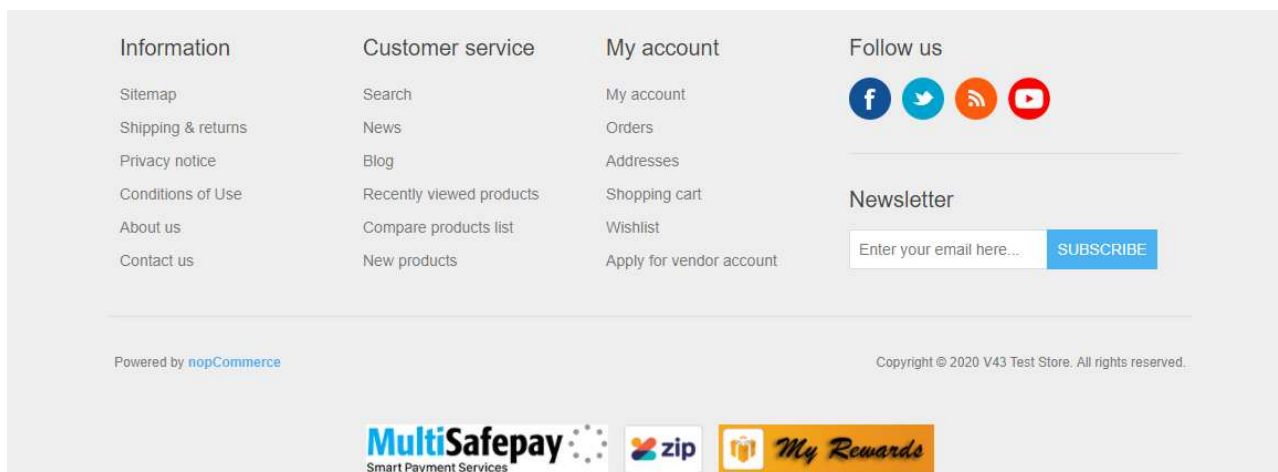

Once all field are entered click **Save**

To **Edit** an existing event, click the edit button

To **Delete** an existing button, click the Delete button

## Program Marketing

The plugin has a widget to display the My Rewards Program logo in the Footer. The Widget can be Enabled or Disabled using Configuration for Widgets

## Installing the Plugin

The zip package supplied can be uploaded and installed using the “Upload plugin or theme” button on the Configuration > plugins page.

Refer to Then the installation of the plugin follows the standard nopCommerce procedure.

See <https://docs.nopcommerce.com/user-guide/configuring/system/plugins.html>

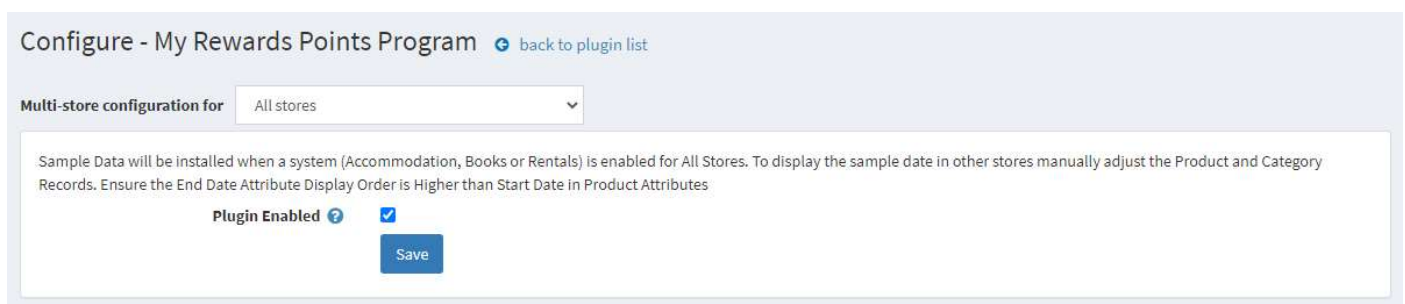

Alternatively, you can manually install the plugin:

1. Copy the Plugin to the correct directory
2. Restart the Application – Click the Icon in the top

Once installed the you can configure the plugin.

## Configure Settings

The settings for the plugin can be set using the configure page. To setup the plugin or define the options open the config page in the Menu then click the required function checkbox. After entering the settings click **Save**.

Configure - My Rewards Points Program [back to plugin list](#)

Multi-store configuration for: All stores

Sample Data will be installed when a system (Accommodation, Books or Rentals) is enabled for All Stores. To display the sample date in other stores manually adjust the Product and Category Records. Ensure the End Date Attribute Display Order is Higher than Start Date in Product Attributes

Plugin Enabled ☒

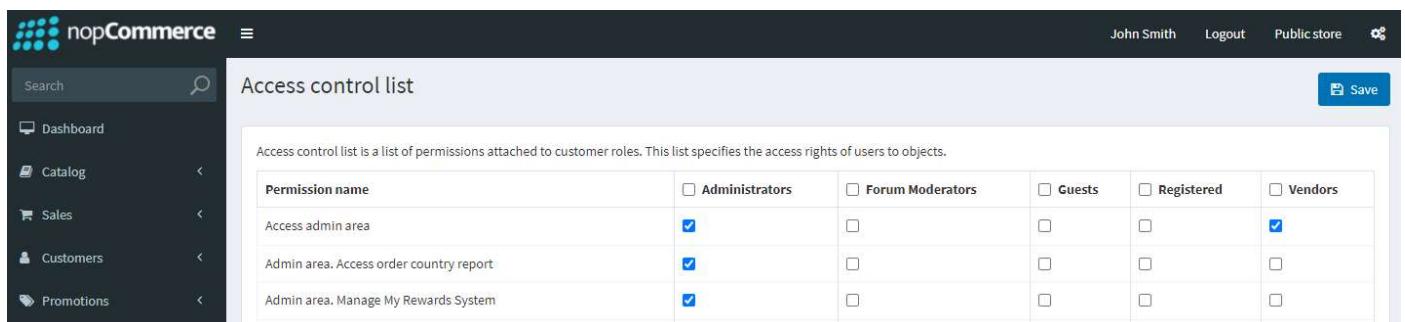

[Save](#)

## Access Control

Before you can access the menu options:

- you need to setup access control to manage access to the Apollo management functions.
- In additional you also need to have access to Manage Plugins.

Go to Configuration > Access Control List
